CARDS

Overview

Cards are used to display information in a variety of different formats all throughout the site. Cards are broken up into Type, Set, Item(s).

Card Types

Card Types establish the style of the cards. For sites with the promo system, the Card Type is called Promos. The promos card type on any static page throughout the site.

Note: Sample Promo cards can be found in the Card Style Guide: /style-guide-cards

CARDS

Card Sets and Items

Sets refers to the grouping of individual elements as a whole. Items are the individual units within the set.

Note: Items do not have to have titles. The title appears on the card so if that is undesirable, do not add a title.

Adding Cards to Pages

Promo Card Types can be added to any page by clicking on the Add Content button and selecting Cards.

The Card Set will automatically add itself to the bottom of the page. (Use the hamburger icon in the top left corner to move it elsewhere on the page, if desired).
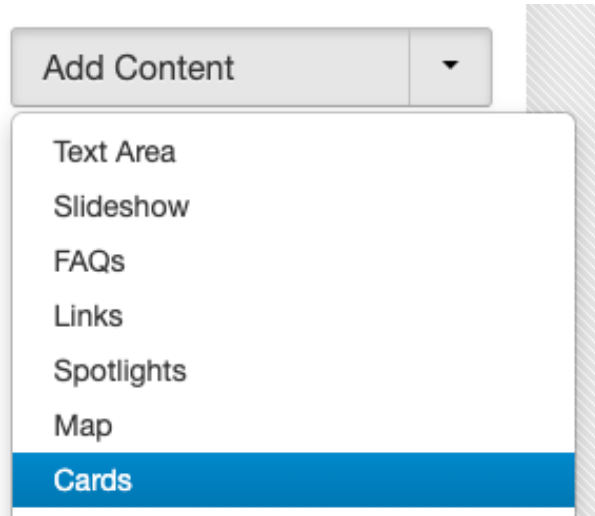

Existing Card Sets used on other pages can be brought into the page by typing the name of the set or scrolling to find it in the listing.

Or click Add New to start fresh.

Managing Card Sets

Once the Card Set has been added to the page, the individual Card Items will display below it allowing you to make changes, if needed. You can change the card set at anytime using the Select a Card Set drop down.

1. Reorder Items within the list

2. Edit the item

3. Delete item

4. Edit the Card Set Options (Showtime Title and Type)

5. Turn item on or off. This option allows you to keep the item in the list for future use, but it will not display in the list until you turn it back on.

6. Add a new item
